

**New Jersey Institute of Technology**  
**Department of Engineering Technology**  
**MNET 416 Production Scheduling**

<b>COURSE NUMBER</b>	MNET 416
<b>COURSE DESCRIPTION</b>	Production Scheduling
<b>COURSE STRUCTURE</b>	(3-0-3) (lecture hr/wk - lab hr/wk – course credits)
<b>COURSE COORDINATOR/ INSTRUCTOR</b>	Dr. S. Lieber/ Daniel Orlos
<b>COURSE DESCRIPTION</b>	A study of manual and computerized methods for setting schedules. Gantt charts, CPM, PERT, PERT/COST, and Line of Balance are some of the topics treated. Problems of line balancing and machine loading are discussed.
<b>PREREQUISITE(S)</b>	MNET 315
<b>COREQUISITE(S)</b>	None
<b>REQUIRED MATERIALS</b>	Operations Management Edition: 14 <sup>th</sup> Edition William J Stevenson ISBN 9781260238891
<b>COMPUTER USAGE</b>	Microsoft Office Products
<b>COURSE OUTCOMES (CO)</b>	By the end of the course students should be able to: <ol style="list-style-type: none"><li>1. Describe elements of a good forecast.</li><li>2. Apply different forecasting methods to case studies.</li><li>3. Describe different methods of planning and scheduling.</li><li>4. Create a plan and schedule in different cases.</li><li>5. Describe Production and Operation Analysis.</li><li>6. Apply linear programming for Production and Operation Analysis.</li><li>7. Describe requirements for effective Inventory Management.</li><li>8. Describe Supply Chain Management.</li><li>9. Describe project scheduling and time costing methods.</li><li>10. Apply knowledge to generate schedule, Gantt charts, and perform analysis.</li><li>11. Describe Lean tools, operations, and Transitioning to Lean System. .</li><li>12. Prepare Engineering documents/reports.</li></ol>
<b>CLASS TOPICS</b>	Strategy and Competition, Forecasting, Methods of Forecasting, Forecasting based on time series data, Monitoring forecast error, Strategic Capacity Planing, Aggregate Planning, Master Scheduling, Simplex Method, Sensitivity Report Analysis, Sensitivity report analysis, Application of Linear programming to production and operation analysis, Inventory Management, ABC Approach, Operations Strategy, Supply Chain Management, Work Design and Measurement,

**New Jersey Institute of Technology**  
**Department of Engineering Technology**  
**MNET 416 Production Scheduling**

MRP and ERP, Lot Sizing with Capacity Constraints, Project Scheduling, CPM Methods, PERT, Time Costing Methods, Scheduling, Scheduling Operations, Gantt Charts, Sequencing, Johnson's Rule, JIT and Lean Operations, Lean Tools, Transitioning to a Lean System .

**STUDENT OUTCOMES**

The Course Learning Outcomes support the achievement of the following MET Student Outcomes and TAC of ABET Criterion 9 requirements:

**Student Outcome 1** - an ability to apply knowledge, techniques, skills and modern tools of mathematics, science, engineering, and technology to solve broadly-defined engineering problems appropriate to the discipline;

**Related CO – 1-12**

**Student Outcome 3** - an ability to apply written, oral, and graphical communication in broadly-defined technical and non-technical environments; and an ability to identify and use appropriate technical literature;

**Related CO – 12**

**GRADING POLICY**

Note: Grading Policy may be modified by Instructor for each Section in the Course)

Three Quizzes	40%
Homework	20%
Project	10%
Final Exam	30%

**Note:** There are three quizzes during the semester. There will be no makeup quizzes.

**ACADEMIC INTEGRITY**

NJIT has a zero-tolerance policy regarding cheating of any kind. Student behavior that is disruptive to the learning environment will not be tolerated. Incidents will be reported to the Dean of Students. Honor Code violations may result in failure in the course, disciplinary probation, and/or expulsion from NJIT. Refer to <http://www.njit.edu/academics/honorcode.php>.

**STUDENT BEHAVIOR**

- No eating or drinking is allowed at the lectures, recitations, workshops, and laboratories.
- Cellular phones must be turned off during the class hours – if you are expecting an emergency call, leave it on vibrate.

**New Jersey Institute of Technology**  
**Department of Engineering Technology**  
**MNET 416 Production Scheduling**

- No headphones can be worn in class, unless allowed by the professor.
- Unless the professor allows the use during lecture, laptops should be closed during lecture.
- During laboratory, if you are finished earlier, you must show the professor your work before you leave class
- Class time should be participative. You should try to be part of a discussion

**MODIFICATION TO COURSE** The Course Outline may be modified at the discretion of the instructor or in the event of extenuating circumstances. Students will be consulted if any changes occur.

**PREPARED BY** Daniel Orlos  
**COURSE COORDINATED BY** Dr. S. Lieber

**CLASS HOURS**

Friday 6:00 PM to 8:50 PM CKB 212

**OFFICE HOURS**

By Appointment:  
Email [dpo2@njit.edu](mailto:dpo2@njit.edu)

**HOMEWORK & PROJECT - IMPORTANT**

1. Homework sets are due one week after they are assigned. . Late penalty is minus 25% each week. Assignments more than one week late will not be accepted.
2. Homework must be submitted in the format provided by the professor.
3. Projects are due on the dates indicated. No late projects will be accepted.
4. Projects should be submitted in the format provided by the professor.

**New Jersey Institute of Technology

MNET 416 Production Scheduling**

**GRADING LEGEND**

<b>GRADE</b>	<b>NUMERIC RANGE</b>
A	90 to 100
B+	85 to 89
B	80 to 84
C+	75 to 79
C	70 to 74
D	60 to 69
F	0 to 59

**NJIT ONLINE INFORMATION**

The instructor will discuss these requirements on the first day of the course and/or post on their Learning Management System (LMS). Please become familiar
